

EFNUDAT

Users and Collaboration
Workshop

“Measurements and Models of Nuclear Reactions” Paris, 25-27 May 2010

Organized by the Nuclear Physics Service of CEA DAM, Bruyères le Châtel

Topics:

- Data evaluation
- Cross section measurements
- Theory and models
- Experimental techniques
- Uncertainties and covariances
- Fission properties
- Current and future facilities

International Advisory Committee

G. Barreau, CENBG, France
E. Bauge, CEA DAM DIF, France
Y. Danon, RPI, USA
B. Haas, CENBG, France
F.-J. Hamsch, IRMM Geel, Belgium
A. Koning, NRG, The Netherlands
R. O. Nelson, LANL, USA

Local Organizing Committee

Olivier Bersillon
Gilbert Gosselin
Thierry Granier
Xavier Ledoux
Jean-Gabriel Marmouget

Secretary: Véronique Diodovich
